Jatoba

Straight grained to irregular and wavy. Fine to moderate texture.

Wenge

Straight grained, course texture.

Bubinga

Interlocked, irregular grained.

Teak / Koto

Teak with a koto inlay.

Specialty Plywoods

Baltic Birch Plywood

This special plywood is constructed with more veneers per unit of thickness than other types of plywood. Baltic Birch plywood has a uniform light colour that is pre-sanded on two sides for a smooth face and backside. This panel is ideal for routing, scroll sawing or for applications requiring high stability. For interior application only.

5' x 5' sheets are available in:

- 3mm (1/8") 3 ply
- 6mm (1/4") 5 ply
- 9mm (3/8") 7 ply
- 12mm (1/2") 9 ply
- 15mm (5/8") 11 ply
- 18mm (3/4") 13 ply
- 24mm (1") 17 ply

Prefinished Birch Plywood

If you are looking for something striking, this is one plywood you'll want to consider.

Factory applied clear UV cured acrylic top coat for a tough, ready-to-go finish.

Available in 1/4", 1/2" & 3/4" thicknesses x 4' x 8' sheets.

Marine Grade Fir

Improved core for increased resistance to moisture problems. For general small boat construction and available in thickness 1/4" to 3/4".

Marine Grade Tropical

Made to stringent "British Standard 1088" grade specifications. 4mm, 6mm, 9mm, 12mm, 15mm and 18mm thickness.

Bending Plywood

Imported Italian Popular Plywood is a true bending panel. The beautiful, pliable answer to shaped and curved construction problem in cabinets, furniture and fixtures. Features a uniform white colour and is extremely light weight. A true "white wood".

Aircraft Plywood

Strong but thin. Made with 100% birch veneers. Available in Birch and in thickness 0.8mm, 1.5mm x 48" x 48" sheets.

Iron on Edge Tape

Our edge banding material comes in several widths and finishes including red oak, birch, white oak, mahogany, walnut, cherry wood grains and white in polyester to match your melamine project.

Veneer Sheets

We compliment our exotic and domestic hardwoods with matching veneers. Widths vary depending on species, cutting method and current availability. For those doing inlay work, our selection is unsurpassed.
