

If It's Wood... It's Windsor

Go Green!

Alowood

A New Generation of Wood

Produced from plantation grown timber, Alowood offers an ideal alternative to traditional hardwoods. It's sustainable, cost-effective and applicable to every use presently assigned to hardwoods. Made using a Unique, environmentally-friendly process. Can be planed and sanded just like any hardwood. Suitable for: Flooring, Cabinetry, Millwork, Furniture, Musical Instruments, Windows, Doors.

Use Alowood for:

- Flooring
- Cabinetry
- Millwork
- Furniture
- Musical Instruments
- Architectural Trim
- Windows
- Doors

A Woody Good Product!

Because Alowood uses only sustainable, plantation grown timber & renewable agricultural value added crops, Alowood lumber is available certified by the FSC.

Finishing Lumber

The kiln dried lumber pictured here is just a sample of what you're likely to find at Windsor. Many woods are available as surfaced four sides (S4S) or in random widths.

Project Woods

No matter what your project, Windsor has a wood species and assortment to suit. We have truly exotic materials such as Tagua nuts, which can be substituted for ivory and scrimshawed, carved or turned. Many of the exotic woods we carry are available in thin stock, subject to availability.

Aromatic Cedar

Closet Lining

Consider this tongue and groove cedar panelling for a variety of projects from cedar chests, closet liners, laundry hampers and more. One package covers roughly 10 square feet.

Not just for closets... cedar chests can benefit from the protection of Aromatic Cedar too.

Line hampers with Aromatic Cedar & enjoy the difference this easy project can make.
