

ALL-IN-ONE SUBFLOOR

No Plywood • No Nails • No Glue

All-in-one is a moisture barrier and thermal break subfloor membrane. It's economically priced, highly versatile and come in consumer friendly roll sizes.

SUPERSEAL ALL-IN-ONE CARPET & LAMINATE SUBFLOOR

For a Dry Basement Floor, Don't Start Your Basement Project Without SUPERSEAL All-In-One Subfloor!

- Instant comfort and warmth that is fast and easy to install
- Blows away the competition when comparing cost and versatility
- Specially designed to control moisture and provide comfortable warm floors over concrete surfaces.
- Helps stop the growth of Mold and Mildew in carpets and wood.
- If your planning on finishing your basement and do not want to go to the expense and labor, as with other types of subfloor products, SUPERSEAL All-in-One is the easy answer for wherever you want to have a comfortable dry floor finish.
- Manufactured from a high density polyethylene that will continue to protect your laminate or carpet flooring long into the future and comes with a 20-Year Limited Product Warranty.
- Ensures that small amounts of substrate moisture have an air chamber in which they can evaporate. This keeps that damp musty basement smell out.
- The success and ability of All-In-One is widely accepted by flooring contractors, do it your selfers and home builders.
- Can increase the floor temperature by up to 30%.
- You'll be glad that you finished your basement with SUPERSEAL All-In-One Subfloor

BENEFITS:

- Easy Installation
- All-In-One is 10x faster and 90% lighter than plywood covered subfloors. It's quick and easy to install requiring no fasteners
- Low Profile - 1/8" (3mm)
- Designed to fit under most existing baseboards and door casings making it a favorite of renovators and contractors
- Permanent Moisture Barrier
- Made from tough long lasting plastic, All-In-One stops substrate moisture from absorbing into underlay, carpet and wood
- No Mold & Mildew = Healthier Homes
- All-In-One provides under floor ventilation allowing moisture to dry and helping to prevent mold and mildew growth
