Colours may not be exactly as shown. See your authorized ProBuilt™ dealer for actual colour samples and options.

## long lasting & low maintenance

ProBuilt™ railings are fabricated using the latest technology in aluminum alloys and exterior metal coatings. Our paint is formulated to exceed the toughest standards in the industry. The result is no rusting, rotting or repainting and low maintenance. We guarantee it! In fact, we guarantee that the standard ProBuilt™ factory paint finish on our residential aluminum railings will not split, peel, flake or blister for as long as you own your railing.\*

**For more information and where to purchase ProBuilt™ DIY products, visit our website at [www.bwcreativerailings.com](http://www.bwcreativerailings.com) or call us toll free at 1-800-667-8247.**

\*see Limited Warranty for details & exclusions. Available online at [www.bwcreativerailings.com](http://www.bwcreativerailings.com)

## easy to install

You don't need a professional to install a ProBuilt™ Aluminum Railing System. You can do it yourself quickly and easily. All ProBuilt™ railing systems (posts, rails, spacers and pickets) slide and snap into place in less than ten simple steps for professional-looking results.

### Here's what you'll need:

- Hacksaw or 10" Mitre Saw with Thin (Kerf) Blade
- Electric Drill
- 1/8" and 3/16" Drill Bits
- 3/8" and 1/2" Hex Head Driver
- No.2 Square Screwdriver
- Measuring Tape
- Rubber Mallet

Note: Please ensure that you use an ACQ compatible fastener when mounting to pressure treated wood.
