See The Difference Quality Makes

## Primed Lodge Pole Pine

Adding a factory applied prime coat to our Premium Western Lodge Pole Pine results in the perfect product for exterior applications where the railing will be painted. Primed Western Lodge Pole Pine results in an economical, structurally strong, railing that is easy to paint prior to installation. Factory priming ensures you start with a consistent quality prime coat to apply your exterior paint. You save time and money in preparing your components for painting. Available in a classic turned colonial style or a contemporary square style.

## ValueLine Green Knotty Cedar

ValueLine Western Red Cedar is green, coastal, tight knot, western red cedar that offers the inherent outdoor performance benefits of Western Red Cedar in a more economical form. Manufactured utilizing a more economical non-kiln dried, knotty cedar fibre, ValueLine cedar is a contemporary line of western red cedar components.

Do-It-Yourself Railings  
Wood Railings

Do-it-yourself simple railing kits offer professional results in 1/4 the time.

Premium quality exterior railing components and accessories for decks, porches, walkways and patios.

## Treated Lodge Pole Pine

Western Lodge Pole Pine is a slow growing, fine grain species of wood. This means it is more stable, with significantly less warping, twisting or bowing than other species used for treated wood. Treated Lodge Pole Pine provides an economical, long lasting component for outdoor use. Paint, stain or leave as is.

## Ultra Premium Clear Western Red Cedar

Western Red Cedar has long been recognized as nature's perfect wood for outdoor use with centuries of proven performance. Western Red Cedar is naturally decay resistant, resists warping, twisting and splitting. Coastal Western Red Cedar is prized for its beauty, rich colour and smooth fine grain. What differentiates BW Creative's Ultra Premium Clear Western Red Cedar is that we start with the best; fine grain Western Red Cedar from the Pacific Coast. We process the premium fibre to select out the clear and then kiln dry it. We profile, sand, and then box to bring you the finest, Ultra Premium Clear West Red Cedar on the market.

Rail Simple believes that simple is beautiful. We start by designing beautiful products, then we use industry leading design engineering to make them do-it-yourself simple. Simplifying the installation process saves you time and money. Regardless of your deck surface, the beauty of Rail Simple defines your living space. Whether you choose our complete railing kit in a box or our railing system components, both utilize our industry leading design engineering to simplify installation and reduce your on-site labor. It all starts with premium components from Rail Simple. Beautiful made simple.

While our Traditional series combines the contemporary clean lines of straight, powder-coated balusters with the simplicity of a pre-drilled railing system, Tuscan offers a unique curved look to stand out from the crowd. Complete with horizontal accent bar Tuscan is truly one of a kind. Both of these low maintenance railing systems are available as complete railing sections in a box or as railing system components. Their pre-drilled rails eliminate the need to calculate baluster spacing, drill holes or screw on baluster connectors.

Clearview has been designed to offer a clear unobstructed view of your great outdoors. Made with 5/16" clear tempered safety glass, Clearview is 25% thicker than typical glass railing sections. This stronger glass is surrounded with a revolutionary new railing system offering the ultimate in simplicity and low maintenance. This unique and innovative railing system allows you to simply place the 6" wide glass panels into the pre-engineered rail slots. Seven rail slots, seven glass panels. It's that easy.

Seemore architectural balusters are beautifully curved, powder-coated, and narrow profiled to enhance the view through your railing. Seemore balusters simply screw into place. They are rust free, corrosion resistant, ACQ compatible and low maintenance.
